

ANNUAL REPORT
OF
THE CONGRESSIONAL PRINTER,
SHOWING

The Condition of the Public Printing, Binding, &c.

DECEMBER 1, 1873.—Ordered to lie on the table and be printed. 261

OFFICE OF THE CONGRESSIONAL PRINTER,
Washington, December 1, 1873.

SIR: I have the honor to transmit the twenty-first annual report of this Office, in order that it may be laid before the Senate.

I am, sir, with respect, your obedient servant,

A. M. CLAPP,
Congressional Printer.

Hon. HENRY WILSON,
President of the Senate.

OFFICE OF CONGRESSIONAL PRINTER,
Washington, November 30, 1873.

To the Senate and House of Representatives :

As the law regulating the public printing directs, I have the honor to submit my annual report, "showing the exact condition of the printing, binding, and engraving, the amount of paper purchased for the same, and such other information as may be within his [my] knowledge in regard to all matters connected therewith;" also, a statement "showing the number of hands employed and the length of time each has been employed." The tabular statements accompanying this report are made up for the year ending the 30th of September, 1873, and are as follows:

- No. 1. Showing the documents printed by authority of law or by order of either House of Congress, the cost of printing and binding them, and the manner in which they were distributed.
- No. 2. Showing the cost of the printing and binding ordered by the executive and judicial departments of the Government.
- No. 3. Showing the disbursements on account of the public printing.
- No. 4. Showing the disbursements on account of paper for the public printing.
- No. 5. Showing the disbursements on account of the public binding.

- No. 6. Showing the disbursements on account of lithographing and engraving for the Senate and House of Representatives, and for copies in *fac simile* of maps, plats, diagrams, &c., for the use of the Supreme Court of the United States.
- No. 7. Showing the estimated cost of work unfinished on the 30th of September, 1873.
- No. 8. Comparative aggregate statement, showing the earnings and disbursements for the year ending September 30, 1873.
- No. 9. Showing the number of hands employed, the length of time each was employed, and the amount earned by each, for the year ending September 30, 1873.

COST OF THE PUBLIC PRINTING AND BINDING.

Statements Nos. 1 and 2 will show the *approximate* cost of the public printing and binding for each department of the Government during the year ending on September 30, 1873, as it appears on the books of this Office. The Statement No. 1, exhibiting the cost of the printing, binding, and lithographing and engraving for Congress, is given very much in detail, with the view of showing the cost, as nearly as is practicable, of each of the annual reports and other public documents which were printed in excess of the usual number, (1,650 copies, and 50 copies for the use of the Librarian of Congress,) under a resolution of Congress, and the manner in which they were authorized to be distributed. The *actual* disbursements of the Office, as detailed in Statements Nos. 3, 4 5, and 6, were as follows :

For the public printing.....	\$741,673 62
For paper for the public printing.....	536,968 21
For the public binding.....	604,249 05
For lithographing and engraving for Congress.....	12,960 30
For mapping for the Supreme Court of the United States.....	2,821 00
For salaries, &c., in the Office of the Congressional Printer.....	12,864 00

The following table exhibits the disbursements of this Office, under their respective headings, during the years ending September 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, and 1873, viz:

Year.	Office of the Superintendent.	Public printing.	Paper for the public printing.	Lithographing and engraving.	Public binding.	Mapping for the United States Supreme Court.	Total.

The amount realized during the year from the sale of paper, paper-shavings, documents, &c., is \$43,274.06, which has been deposited in the Treasury of the United States, as required by law.

DISTRIBUTION OF DOCUMENTS.

Of all executive and miscellaneous documents and reports of committees, there are printed, under the orders of Congress, as the usual number, 1,625 copies for the Senate, and 1,650 for the House; and also 825 copies of bills and resolutions for the Senate and House, each. For information, I would state that these will be distributed, during the first session of the Forty-third Congress, unless otherwise ordered, in accordance with the following schedule :

Where delivered.	Senate documents and reports.	House documents and reports.	Senate bills and joint resolutions.	House bills and joint resolutions.
Document-room of the House	265	265	340	340
Office of the Clerk of the House.....	20	149	20	308
Sergeant-at-Arms of the Senate	156	124	230	130
Office of the Secretary of the Senate.....	6	6	15	8
Folding-room of the Senate.....	190	-----	170	-----
State Department.....	5	5	10	10

File-copies	18	7	20	9
Reserved for binding.....	958	1,087	-----	-----
Total number printed.....	1,625	1,650	825	825

The reserved documents are bound in volumes of appropriate size (in sheep and calf) and are distributed as follows :

Where delivered.	Senate documents.	House documents.
Senate document-room.....	112	112
House document-room.....	263	361
Senate folding-room.....	43	-----
Department of State.....	60	60
Department of the Interior	420	470

Library of the House of Representatives	7	30
Library of the Court of Claims	-----	2
Congressional Printer.....	1	-----
Total reserve.....	958	1,087

I would most respectfully call your attention to the necessity of increasing the number of the documents and bills printed for the use of the Senate and House, as both bodies are now full, and the House numbers three hundred and two members. The number of documents and bills heretofore distributed to the House will prove inadequate to supply the demands of that body. I would therefore respectfully suggest that the usual number of documents be increased to 1,900, and of bills and resolutions to 1,000 copies, and that a revision of the distribution be made early in the session.

PAPER FOR PRINTING.

The fourth section of the act of July 27, 1866, gives to the Joint Committee on Printing the exclusive control of contracting for paper for the public printing and of "fixing a standard of paper for the different descriptions of congressional and executive printing." Under the direction of the committee, contracts were entered into for supplying any required quantities of the various kinds for the year ending on the 31st December, 1873, with the following persons :

Statement No. 4 appended to this report exhibits the exact quantity of each kind of paper purchased during the year ending on the 30th day of September, 1873, and the cost per ream. The aggregate amount expended was \$536,968.31.

There remained on hand at the end of the year papers of various kinds, as will be seen by reference to the same statement, amounting in value to \$149,400.03.

But very little difficulty has attended the fulfillment of the contracts for paper during the past year. There has been at times some tardiness in keeping up the supply of writing papers equal to the necessities of the Office, which have been unusually large; beyond that there has been no cause of complaint. The quality of the papers of all classes has been kept well up to the standard.

LITHOGRAPHING AND ENGRAVING FOR CONGRESSIONAL DOCUMENTS.

The aggregate amount paid for this character of work was \$12,960.30, as will appear by reference to Statement No. 6.

MAPPING FOR THE SUPREME COURT OF THE UNITED STATES.

The amount expended for this class of work during the past year was \$2,281.00.

THE PUBLIC BINDING.

The amount expended during the year ending September 30, 1873, on account of the public binding was \$604,249.05, the details of which will be found in Statement No. 5. The value of materials on hand at the end of the year was \$101,678.62.

It affords me pleasure to report that, through the efficiency of the Foreman of Binding, the large amount of congressional binding which had been accumulating in this Office for some time prior to 1869, when I entered upon my duties, and which, under a large increase of business since, has been augmented, is now nearly completed, and that hereafter the resources of the binding department of the Office will be mainly applied to meet the current demands of Congress and the Departments.

CONGRESSIONAL PRINTING AND BINDING.

The orders made by the third session of the Forty-second Congress for public documents, exclusive of the usual number, (1,650,) amounted to 223,088 volumes. They are as follows:

PROCEEDINGS AND DEBATES OF CONGRESS.

Under a resolution of Congress, passed March 3, 1873, the important and laborious work of printing the proceedings and debates of Congress was transferred to this Office, and on the 5th day of March, 1873, the first copy of the CONGRESSIONAL RECORD, in quarto form, containing a full report of the proceedings and debates of the first day of the special session of the Senate, made its appearance. The change in the form and style of this publication from that previously followed by the *Globe* was induced by a desire to secure comeliness, convenience, and economy for the work; and I am gratified in the assurance that it meets the hearty approval of the Senate and such members of the House of Representatives as have given the matter their careful attention.

The publication of the proceedings and debates during the special session of the Senate gave fair opportunity for testing the capacity of this Office for the work; and I am fully convinced, under that experience, that promptness and economy are secured by the transfer. The facilities of the Office are so extensive, that prompt publication of the proceedings and debates of any day's session, no matter how extended or voluminous, will be assured the following morning without a peradventure, if the copy thereof is promptly furnished the Printer. Of the economy of performing this service at the Government Printing Office there can be no doubt. Its resources are so manifold, and its economy of labor and material is such, that at least thirty per cent. of the money heretofore expended in accomplishing this work will be saved to the

Government through the present arrangement, which places it under the superintendence of the Congressional Printer.

In this connection I would most respectfully recommend an early appropriation to meet the expense of this printing for the present session of Congress, as no estimate or appropriation has heretofore been made therefor.

I would also ask for authority to appoint another clerk for the business of the RECORD, and an appropriation to meet that expense.

I would also further recommend that an appropriation be made for the purchase of a vacant lot of land, 20 feet front, running through to the alley, on the west line of the lot now occupied by this Office, and for the erection of a wing from the west end of the present building extending south to the alley, corresponding in style, size, and capacity to that erected on North Capitol street, under the supervision of the Architect of the Capitol, in 1871. Such a structure would afford accommodation for the printing of the proceedings and debates of Congress, for the necessary stereotyping and electrotyping for the public printing, for a paper-warehouse, for the repairing of machinery, and for the inevitable increase of the business of the Office for several years to come. Every available part of the building is now occupied, and some portions of it are already crowded to inconvenience.

THE DEPARTMENT PRINTING AND BINDING.

The law of May 8, 1872, which provides that the several Departments of the Government shall make annual estimates for the printing and binding required by them respectively for the year, took full effect on the 1st of July, 1873, and the following is the result thereof for the first three months, ending September 30 :

Department.	Amount appropriated.	Amount expended.
Treasury	\$325,000 00	\$137,645 74
Interior.....	220,000 00	70,328 76
Post-Office.....	175,000 00	87,332 88
War	100,000 00	43,508 79

STEREOTYPING FOR THE PUBLIC PRINTING.

The convenience and economy of stereotyping for the work of this Office within itself is clearly established. The following statement shows

the amount and cost of work executed in the stereotype foundry of this Office during the year ending September 30, 1873 :

Value of work done at trade prices.....	\$25,859 38
Expense of labor and material for same.....	11,252 13
Profits thereof.....	14,607 25

BRANCH PRINTING OFFICE.

The branch printing office is continued at the Treasury Department, for its convenience, with results entirely satisfactory.

AMENDMENTS TO THE LAW.

The financial demands of this Office have now reached a point where it becomes necessary that section 3 of the law of June 23, 1860, relating to the public printing and binding, shall be so amended as to authorize the Secretary of the Treasury to advance to the Congressional Printer, from time to time, as the public service may require it, and under such rules as said Secretary of the Treasury may prescribe, a sum of money not exceeding at any time the full penalty of his bond, to enable him to pay for work and material.

The penalty of the bond of the Congressional Printer is \$80,000. He is now allowed by law to draw two-thirds of that amount, \$53,333.33, in advance, to compensate labor and purchase material. This is inadequate to accomplish that purpose, and an amendment of the law in accordance with this suggestion is a matter of absolute necessity, to enable this Office to compensate the labor and purchase the material now required in the prosecution of its business.

I would again most respectfully, but urgently, call the attention of Congress to the arduous duties and labors imposed upon the clerical force of this Office under its imperious necessities. The number of clerks employed was limited by law when the business of the Office was, at most, less than two-thirds what it is now. Indeed, it is apparent that the burdens of labor in that department of the Office have been doubled since its organization, without any increase of reward corresponding thereto. The clerks in this branch of the Government service are compelled, under its pressing necessities, to labor at least two hours each day more than falls to the lot of clerks of the same class in the other Departments, and it would seem but just that their compensation should be correspondingly advanced. I would therefore recommend, as a simple act of justice, that either the force or its rewards be increased.

IN CONCLUSION

I take pleasure in referring to the present condition of this Office in its discipline and efficiency. I have enjoyed the cheerful and hearty co-operation of all my subordinates in the conduct of its business, and I

readily accord to them the credit of much of the success that has attended my administration. Through the efficiency of the Foremen of Printing and Binding, since the adjournment of the last Congress, a very large amount of work has been accomplished, and the vast accumulation that has heretofore taxed its resources has been so far overcome that in future its main forces can be applied to current requisitions.

All of which is respectfully submitted.

A. M. CLAPP,
Congressional Printer.
